

EVAN JOASSON

✉ evan.joasson@gmail.com ☎ (+33) 07.64.02.40.91 📍 Lyon, France

OBJECTIVE

Motivated and detail-oriented student seeking a 3 to 5-month internship in a dynamic international company, where I can apply my academic knowledge, develop new skills, and contribute to meaningful projects while growing professionally in a multicultural environment.

EXPERIENCE

Cybersecurity Architect (apprenticeship) – SPIE ICS

Oct 2024 – Present

- Contribute to the development and implementation of a security hardening plan for clients
- Conduct audits for clients regarding their network segmentation and system / network / security hardening levels
- Monitor and stay up to date with technical regulations and cybersecurity best practices
- Apply and automate system hardening mechanisms across deployed IT solutions

IT Technician (apprenticeship) – ADS (Les Arcs, Ski Resort)

Sep 2022 – Jun 2024

- Installation and configuration of IT equipment
- Technical troubleshooting
- Efficient management of tickets and users, phone support, remote control, or on-site intervention
- Configuration of network elements (switch, router, ski area cameras, microwave links)

EDUCATION

Université Grenoble Alpes – Grenoble (France)

Jun 2024

Bachelor's degree of Network and Telecommunications

(With an optional Cybersecurity option)

CESI – Lyon (France)

Jun 2027

Master's degree in computer engineering

(With an optional Cybersecurity option)

SKILLS

Programming languages: Python, Bash

Web technologies: HTML5, CSS3, React, Node.js, Express

Databases: PostgreSQL, SQLite, MySQL

Cybersecurity: Audit, Pentesting, Self-training on RootMe, Self-training on TryHackMe, EDR/NDR (SentinelOne, Darktrace)

Networking: Switch/router (Cisco, HP Aruba, Dell), Firewall (Palo Alto, StormShield, Watchguard, pfSense)

System Administration: Monitoring / SIEM (Grafana, PRTG, Splunk), Windows Server 2016 - 2022 (AD, DNS, DHCP, IIS, Certification Authority), Linux System Administration (Apache, Bind, Postfix)

Virtualization / Containerization: VirtualBox, VMware ESXi, Docker

PROJECTS

EasySave - BackUp Software

- Scalable professional backup software in C#/NET with MVC architecture.
- CLI and WPF graphical interface, SHA-256 encryption, parallel backups and priority management.
- Scrum methodology with full Git workflow.

Breezy- Social Network

- Development of a lightweight and responsive social network, inspired by Twitter/X, designed to operate efficiently in low-resource environments with limited connectivity.
- Microservices architecture with Docker, JWT authentication, and responsive React/Next.js interface.

LANGUAGES

French (Native), English (Upper-intermediate to Advanced – B2/C1)
